

# HORNBY ISLAND RECYCLING DEPOT HISTORY

The HI Recycling Depot began more than 40 years ago, in 1978, thru the combined efforts of many Hornby Island volunteers. Prior to that, islanders did what most country people did – burned what they could, buried what they could not.

But as the population on Hornby grew and we became more aware of environmental issues such as soil and air pollution, a new plan had to emerge. Glass and tin cans were collected and sold off island to be recycled. Next plastic, then cardboard, were added to the items being recycled. Volunteers constructed a “Free Store”, where residents could bring usable items to share.

Incinerating our garbage ceased in 1991. Over the next 5 years, the old land fill was capped with clay and a lovely garden was established on top.

The Knowledge Network made and aired a video, “Hornby Recycles”, in 1998. In 2001, our tiny island's Recycling Depot received the Recycling BC Award of Excellence. In 2002, Hornby youth were sponsored to attend the UN Children's Conference on the Environment. In 2012, we received a Leader in Sustainably award from Call 2 Recycle.

A new Recycling Building was built in 2011. We then created a revised site plan, with the help of community meetings, in 2013 and completed the building of a new and bigger Free Store in 2015. Minimizing our “absolute garbage” and finding ways to reuse and recycle has been in our blood for decades!"

More details are on our website

## Here is What Is Not Recyclable & Must Go Into The Dumpster

*Tipping Fees Apply.*

Saran wrap, disposable diapers, tissues, bags or other items composed of layers/mixes of paper & plastic, as well as broken furniture.

Please consult the 2023 Fee Schedule

*If you are unsure, please ask!*

*We are happy to help.*

## PRE-CYCLING

Make choices when you shop.

Consider the environmental effects of a product, and its packaging, before purchasing.

Some pre-cycling suggestions:

- Buy things that can be reused or repaired.
- Avoid disposables such as razors, lighters, diapers, pens, plastic food ware, paper plates and batteries.
- Choose the least packaged item or buy in bulk.
- Tell your store manager about any excessive packaging.
- Use your own reusable grocery bag or box.

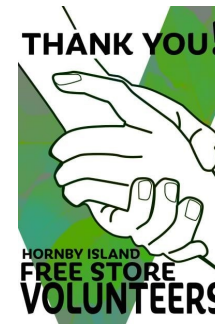

**PLEASE HELP REDUCE WASTE  
GOING TO THE LANDFILL**

## FREE STORE

We accept donations of clothing, toys, books and household goods that are clean and in good condition. No dirty or broken items, please.

Our Volunteers make it happen! All sorting of donations and stocking of the Free Store shelves is done by volunteers. They appreciate not having to sort out dirty or broken items.

Our Free Store always needs volunteers. Check in with the Depot office for more information.

*You'll pay for your garbage.  
Recycling and Reuse are FREE.*

So, it makes “dollars and sense” to sort and recycle!

By recycling and reducing your garbage, you will be helping to:

- Reduce the need for landfills
- Save natural resources
- Reduce pollution created by refining raw materials
- Conserve the energy required to produce products
- Set a good example

## **FREE STORE & WASTE DIVERSION**

3600 Central Road

250-335-0550
